Over the years I have been to and conducted many conferences and came across lots of key speakers, Judy is without doubt one of the best! She is real, passionate, and engaging with information that is useful and rememberable. Judy manages to enrapture the crowd from the get-go with her knowledge and a sprinkle of humour. She can make them laugh, cry but most of all she makes them feel empowered to achieve more. The participants left the room discussing how great the sessions were & wanting her to attend our next events!
